JOLOMI OMADELI

UI/UX Designer & AI Web Developer

Delta State, Nigeria | [your email] | [your phone] | [portfolio link]

PROFESSIONAL SUMMARY

UI/UX designer with 3–4 years of design experience who turns designs into responsive, working websites using HTML, CSS, JavaScript and Bootstrap 5, with AI-assisted development through Codex. Through the Microtech Africa AI Web Development programme, I built a Cohort 8 class community website and a business website for AJ Supermarket & Guesthouse in Sapele, Delta State, and designed Exam Arena, an exam-practice concept for WAEC and NECO students. I care about clear structure, welcoming visual design and honest, usable interfaces.

SKILLS

Design: UI/UX design, wireframing, prototyping, visual design, Figma, Framer
Development: HTML5, CSS3, JavaScript, Bootstrap 5, responsive design, AI-assisted development with Codex

SELECTED PROJECTS

Microtech Africa — Cohort 8 AI Web Development Class

Class community and learning website built during the Microtech Africa AI Web Development programme. Includes class information and introduction, learning and community sections, member and tutor information, a learning timeline, and contact elements.

Tools: HTML, CSS, JavaScript

AJ Supermarket & Guesthouse

Website for a real business in Sapele, Delta State that combines a supermarket, restaurant and guesthouse. Presents the business's offerings, food and shopping information, accommodation options, and ways for customers to enquire about orders or bookings.

Tools: HTML, CSS, JavaScript

Exam Arena (Concept)

Educational gaming concept for secondary school students practising exam questions for WAEC and NECO. Planned experience: login and signup, student dashboard, subject discovery, subject cards and interactive exam practice, making studying more engaging through game-inspired interactions.

Tools: HTML, CSS, JavaScript

EXPERIENCE

Product Designer — Analogue Shifts

[dates]

- Designed the company website, which brought in around 1,000 new users in its first month.
- Redesigned an AI resume builder as a concept; it was approved by the founders and stakeholders but did not go live.

Product Designer — HostShifts

[dates]

- Designed user interfaces for a web hosting platform.

Product Designer — ChopMap

[dates]

- Designed user interfaces and flows for the ChopMap product.

Product Designer — Retrostack

[dates]

- Designed user interfaces and flows for Retrostack.
